ANASTASIIA KUTSENKO
JUNIOR FRONTEND DEVELOPER

Webpage   LinkedIn   GitHub   anastasiia.kutsenkova@gmail.com   Ústí nad Labem, ČR

Summary

My life has been shaped by curiosity and a passion for learning, leading me through diverse roles, including head of a logistics department, and explorations in music, psychology, sports, and languages. These experiences have enriched my perspective and inspired a vision rooted in understanding the interconnectedness of the world through numbers, laws, and dependencies, ultimately guiding me to programming.

With a profound interest in UX/UI design, I aim to craft thoughtful and accessible interfaces that enhance usability and make a positive impact on people's lives. I am committed to expanding my skills, mastering those I've acquired, contributing to open source and achieving the highest level of proficiency. I believe that creating is a gift to humanity - empowering us to innovate, collaborate, share, and build a better future. Ideas shaped by unique experiences, psychological insight, and a broad worldview make me a valuable contributor to any team's success.

Skills

Languages:	HTML, CSS, JavaScript, TypeScript
Frameworks and Libraries:	React.js, Redux, Tailwind CSS
Backend and Database:	Node.js/Express, MySQL, MongoDB
Tools:	VSC, REST API, JSON, NPM, AXIOS, GraphQL, Vite, Canvas, Swagger, OpenAPI
